116	Jerry Costello	D	E
117	Dave Severin	R	E
118	Natalie Phelps Finnie	D	RO

 *Remember To*  
**Vote**  
*November 6th*

The mission of the Illinois Federation Political Action Committee is to help those who want their vote to protect the unborn, the disabled and the elderly. Those endangered innocent lives that are being threatened need men and women in government who respect all human life.

Our intent is to elect men and women of all political parties who will speak for and vote for legislation to protect the first and most important right for all of us - our right to life.

When preparing our Endorsements, the IFRL-PAC considers voting records, survey responses and input from other established pro-life/pro-family groups. A pro-life voting record of an incumbent is given more weight than a completed survey. A mixed voting record of a pro-life incumbent has an impact on our final decision.

Please call (217) 544-9700 if you have any questions for us.

### **Why is a midterm election so important?**

The smaller the election, the more impact your individual vote actually has.

The reason is two-fold...

First, fewer people vote in the midterm elections so your vote has more of an impact.

Second, while tens of millions of Americans vote for the president, only thousands of people may turn out to support a governor or representative. Yet these folks are directly responsible for how well your state and community functions. This is an important race this year and can steer Illinois in different directions. This is your chance to change policy in Illinois.

It makes sense to understand the candidates' platforms and vote for the person who represents the Pro-Life vision the best. Thousands upon thousands if not millions of lives depend on your vote!

This ad is paid for by the IFRL-PAC, connected with the Illinois Federation for Right to Life, Inc. and was not authorized by any of the candidates. John Ryan Treasurer.
